

LATE EDITORIAL.

The Populists of the East are calling the Democrats thieves, claiming that they stole their principles, that of free silver.

It seems that the new Secretary of State will have his hands full for some time to come as there are complications, (some of them serious) to settle between the United States and nearly every other civilized nation.

The coroner's inquest on the body of Miss Nellie Harrington, who was murdered in San Francisco recently, resulted in a verdict of murder by an unknown person. Detectives are still at work on the case in the hope that they will discover the murderer. San Francisco is undoubtedly making a record for herself, so far as atrocious murders are concerned, that is unenviable.

The meeting of the Arizona Press Association will be held at Prescott on July 4th. It was first announced that the meeting would take place on the 8th; but the change is a good one as it will give the pencil-pushers a chance to celebrate the Fourth with the patriotic citizens of Prescott. After the meeting the members of the Association will visit the Grand Canyon of the Colorado.

PRESIDENT Cleveland has appointed Judson Harmon of Cincinnati, O., as Attorney General, to fill the vacancy caused by Attorney General Olney being appointed Secretary of State. Judge Harmon is one of the leading lawyers of Ohio, as well as one of her best citizens. He is forty-nine years of age; he graduated at Denison University in 1866, and commenced the practice of law three years later, in the city of Cincinnati where he has lived ever since and built up a reputation such as few men ever attain.

There is a crying out that the days of the laurel and the ivy are numbered. The laurel and the ivy will grow on any soil where a home and a fireside can exist. They will thrive in any human heart where there is the sentiment of patriotism to give them light and warmth. They will gleam in the sunshine and in the tempest and storm; and in every breast where justice finds a home, they will be the guests of honor. In prosperity they are the wine and the flower; in adversity their heart is of the rugged oak. The principles of democracy are as valuable as the laurel and the ivy. They are the flowers to plant on the grave of Democracy—keep them. There will be many other funerals first.—Vidette.

One great step in advance might be taken in this territory toward reform in teacher's examinations. We are decidedly in favor of maintaining a high standard; yet what is the use of testing the primary teachers in geometry, trigonometry or calculus? Would it not be much better to confine the examination of those who train the little ones of tender years, simply to subject, methods and work in the primary grades? High scholarly attainments are certainly desirable and absolutely indispensable when selecting principals of schools, superintendents of high schools or even teachers in the grammar schools. The work of the primary instructor, however, is in a different field altogether. In practical work in the schoolroom, only rudiments of the various sciences are taught; these should be thoroughly mastered. Tact and ability to impart information, together with a loving disposition is about all the capital required in the lower grades of school work. No one can become proficient in all lines of instruction, consequently it seems only necessary to examine in the practical work one is called upon to perform.—Review.

A QUEER INCREASE.

Seven little missionaries—Horrible their fate—Cannibals picked clean their bones. Then they were ate.—John Kendrick Bann.

TERRITORIAL.

Clipped and Condensed From Late Exchanges.

PASSING EVENTS OF THE WEEK

Happenings Throughout the Territory Edited With the Scissors.

Prof. Stormont has resigned as the principal of the Normal school and Dr. McNaughton of Prescott has been appointed in his stead.—Free Press.

—(o)—

A large amount of wool is being shipped to Navajo and Holbrook for shipment to the wool markets east. The prices are a point higher than last year.—St. Johns Herald.

—(o)—

Hon. E. J. Edwards and wife came in from Florence Monday night and took rooms at the Kimball House. They left Tuesday for Phoenix. The Judge is slowly recovering from his severe illness.—Free Press.

—(o)—

J. N. Portor, merchant of Pima, and one of the big cattlemen of Graham county was over from there on business Wednesday. Mr. Portor made a sale recently of a shipment of cattle which will be loaded at Thomas on the 10th instant. Some of his neighboring ranchmen are putting in with him to make up the shipment.—Stockman.

—(o)—

Barnabe Palm, who way back in the sixties was a mail rider from Tucson to Apache Pass, was in from Safford, Graham county, yesterday visiting old friends and looking over his old stamping ground. Many and wonderful are his stories of the old days when things were livelier than now.—Star.

—(o)—

Robert Eastman, one of the switchmen belonging to the night crew in the yards here, had both feet badly crushed Sunday night while at work. He was riding on the front foot board of the switch engine when a short rail allowed the front end to get off, catching the unfortunate man. It was to be Mr. Eastman's last night of work in that position and his many friends regret his misfortune.—Williams News.

—(o)—

On Saturday night John Harvard who lives on the Gulley place adjoining the experimental station south of town, hearing a noise in the orchard went out to investigate and discovered four Mexicans standing there. He attempted to get them off the place, whereupon they attacked him and he was badly injured. He was taken to the hospital and is now lying there.—Phoenix News.

—(o)—

Capt. A. L. Myer, Indian Agent at San Carlos spent several hours in Wilcox yesterday afternoon, arriving on a freight from Bowie, and going out on the passenger at 8 o'clock. He was enroute to Florence where district court is in session. Capt. Myer said, in speaking of the Indian situation at his agency, that all was quiet there, and that to learn anything concerning the Indians over which he has charge it is necessary to get away from the agency, which goes to prove the old saying that to get the news you must go away from home.—Sulphur Valley News.

—(o)—

The Hon. Chas. M. Shannon is reported to be leading the van among the crowd of aspirants for Gov. Hughes chair, should his enemies succeed in unseating him. Shannon would undoubtedly receive the most thorough Territorial support for the place when vacant of any man whose name has yet been mentioned.—Phoenix Herald.

Conflicting Stories.

James Dolan, who mysteriously disappeared from Gold Hill a few months ago, was seen by L. D. Giddings in Los Angeles recently. He explained to Mr. Giddings that he had received a 601 notice ordering him to leave camp. This same information was conveyed to the Enterprise at the time of his disappearance but was scarcely credited. His tongue was wagged too much about decent women. There are others in this country in the same boat and this should be a lesson to them.—Enterprise.

This is a strange story that the Enterprise credits to Giddings. No one in this section of the country heard of this notice. Mr. P. Johnson tells the Liberal a story regarding the matter that is still stranger. He says Dolan got the notice all right and that it was sent him by the Silver City Masonic Lodge warning him to leave because he had slandered the widow of a mason. The penalty for not obeying being death. This would explain why nothing was heard of the notice either at Gold Hill or Lordsburg. The Liberal is inclined to take Giddings' story as well as Johnson's with a liberal allowance of salt.—Liberal.

E. T. Jams, Safford's popular druggist, went to his cattle ranch near Wilcox last Monday and returned Thursday. Mr. Jams says the cattle in the vicinity of his ranch are looking well.

DUNCAN.

The Detroit Copper Co. has again started up its work train. It passed through here looking quite natural.

Dr. H. D. Underwood, of Tucson, passed through to Clifton on Saturday and returned to Tucson again on Sunday.

The assay office or works is now ready for business. Bring on your ores. Mr. Wores will do the fair thing with all mine men who have ore for sale. He is doing a good business now and it will increase right along.

Very little rain as yet and the river is dry below here. Rain is threatened every day and we expect a good one before long.

Mr. Raber, who is acting as agent, was compelled to return to Clifton for repairs, having lost a main spring. His father, who is a watchmaker, at Clifton, soon sent him back repaired.

We notice a large lot of drummers passing in and out of Clifton and they say they are doing a good business. They say better times are not only expected, but they are prevalent now.

Mr. Edward Brewster, Ward & Courtney's foreman, met with an accident last week. An evener broke on a stacker, striking him on the breast, breaking one rib. Dr. Hoefer, of Clifton, dressed the wound.

Mr. Patrick Ward left for El Paso last week, at which place he expects to meet parties from the east to figure on putting in a big dam in the Rio Grande river, near Raton, N. M.

Very few farmers are coming to town now; they are all busy making their crops and if it will rain up the river to give them water they will do well this season.

Mr. Lon Moore can now get about his farm and do chores, but one hand and arm will not be much good for some months yet.

Mrs. A. C. Windham spent several days in town last week, visiting Mrs. Brown.

The correspondent of this place for the Bulletin says through that sheet that Judge Blake, of Safford, has secured the Arizona Copper Co.'s hay contract for the ensuing year. This is a mistake; the contract will be held here; it was simply reported that a Safford party had secured it.

Mr. Brewster made a flying trip to Clifton to see the doctor last Tuesday and returned Wednesday.

Florence Brown went to Clifton Monday last to visit her papa, returning next day.

The Loco Plant.

Loco growing on the plains in great abundance again this year. The loco plant grows in a bunch about the size of an ordinary hat and is rank green and tender. Its blossoms are blue in color, it is a nuisance to stockmen, for while horses which have never tasted it will leave it untouched so long as the grass is good, woe be the horse which has acquired a taste for it, for they will not touch the grass as long as there is any loco in sight. The loco habit is as bad for horses as the strong drink habit is for men, it ruins them, it seemingly directly affects the brain and the horse which eats it gets stiff in the joints and has little use of his muscles and is foolish, when you go to lead him he is as liable to run backwards as he is to go forward, and shows many other symptoms of the strange plants effect on his brain. Often a locoed horse will stand over a trough for fifteen minutes before he can get sufficient control over his nerves to stoop down and drink, the loco plant has been sent to a chemist for analysis, but so far nothing about it has been discovered that is poisonous, or injurious to it, yet the fact remains that it is the ruin of horses and when one once acquires the habit of eating it, it becomes a mania—an incurable disease with him, and though he may be placed where he can get no more of it he will never recover, men who have pastures can protect their horses, but where the horses roam at large there is trouble.

Through an oversight we failed to mention the fact, in our last issue, that Miss Jennie Kelley returned home last week from a three year's course at an eastern college. She has completed her course and graduated. We extend congratulations to Miss Jennie on the high degree she attained in the graduating class.

Mr. O. M. Allen called at our office yesterday and informed us that Mrs. Allen's condition is becoming more hopeful every day. She seems to be gaining strength slowly, her appetite is better and she was able to sit up a few minutes Thursday.

We have received an invitation to the Cliff re-union to be held at the residence of Bishop Joseph Cluff, at Central, on June 20th, in honor of the one hundred birthday of the Patriarch, David Cluff.

The United States Grand Jury adjourned last Wednesday and Messrs J. T. Owens and B. Palm returned home Thursday.

W. T. Webb, one of Pimas popular merchants, was a caller GUARDIAN office this week.

The Drummer's Prayer.

Before dinner was served at one of our fashionable Arizona hotels not long ago, a drummer who occupied the foot of the table, was asked by the proprietor, who in a dignified manner held the seat of honor, to say Grace. Drummers as a general rule have the reputation of being, "up to date" and this one was no exception. Much to the landlord's embarrassment the following prayer was offered:

"Our landlord at the head of this table, we hallow thy name, Let the beef steak come; let it be properly done; let it be free from taint; give us this day some ham and eggs, also fruit to season; forgive us when we kick, as we forgive those who kick against us; lead us not to unclean, buggy beds; deliver us from dirty towels and cockroaches and thine is the glory for ever and ever."

Corn for sale by Beebe & Sullivan. 6-15-2t

The infant child of Mr. and Mrs. Arthur Wight, of Solomonville, is reported to be dangerously ill.

J. T. Owens & Co's. grist mill commenced business in earnest this week.

J. T. Owens keeps the finest line of shoes in town. 4-20 tf
